To the Members of the Board

Workplace Safety & Loss Prevention Incentive Program
Program Credits

In RC Bulletin 2226, issued on February 2, 2010, you were informed of Manual amendments necessary due to the adoption of regulations issued by the New York State Department of Labor regarding the Workplace Safety and Loss Prevention Incentive Program.

As a reminder, although the rules and procedures regarding this program have been established, the actual program credits are being developed by the New York State Insurance Department and will be published in a Department regulation when these credits have been determined. Following issuance of the Department regulation, the Rating Board will issue a bulletin notifying the carriers regarding the final approved credits.

Very truly yours,

Monte Almer

President
