R.C. 2388

To: The Members of the Board

        RE: New York Workers Compensation
            Payroll Limitation Law
            Payroll Limitation as of July 1, 2015

Legislation enacted in 1998 established limitations on the payroll to be used in the calculation of workers compensation premiums for the construction industry beginning on October 1, 1999. Details of this law were published by the Rating Board in R.C. Bulletin 1917, dated August 3, 1999.

Beginning on July 1, 2010, and annually thereafter, the maximum workers compensation weekly benefit is two-thirds of the statewide average weekly wage, as determined by the New York State Department of Labor (DOL), in accordance with the provisions of the 2007 Workers Compensation Reform Act. This change in the maximum weekly benefit results in a corresponding increase in the payroll limitation amount, which is now the average weekly wage as calculated by the DOL.

Consequently, please be advised that, for policies with effective dates on and after July 1, 2015, the payroll limitation cap will be $1,266.44 per week.

When subsequent changes in the workers compensation maximum weekly benefit occur, you will be notified of the appropriate payroll limitation.

        Very truly yours,

        Monte Almer

        President
