Re: Manage Data Phase II Enhancements Release

Members of the Rating Board:

I am pleased to announce that on Monday, February 4, 2019, the Rating Board will release Phase II enhancements for the Manage Data application.

The enhancements and improvements contained within the Phase II release respond directly to member insurer requests and feedback, and we believe will provide significant value to our membership. Phase II enhancements include the following functionality:

- (1) Drag, drop and upload multiple WCPOLS and WCSTAT files simultaneously, all to be processed within minutes;
- (2) View historical experience modifications, view and download rating worksheets (for the carriers of record), and CPAP details;
- (3) Print multiple unit stat reports simultaneously;
- (4) Copy all or selected exposure and loss records for ease of creating subsequent and correction reports;
- (5) Export USR data to spreadsheets;
- (6) Additional search criteria; and
- (7) Explanatory information for policy errors to aid in the correction process.

We look forward to continuing to work with our membership in 2019 to develop the next set of enhancements to the Manage Data application. If you have any questions or concerns, please do not hesitate to contact Ms. Lucy DeCaro, Vice President of Operations, at (212) 697-3535, ext. 124 or at ldecaro@nycirb.org

Very truly yours,
