Re: Explanatory Memorandum for the 2024 Loss Cost Revision;
Effective on October 1, 2024

Members of the Rating Board:

I write to provide you with the explanatory memorandum related to the approved October 1, 2024 loss cost revision announced yesterday, which was inadvertently omitted from RC 2608. The explanatory memorandum is intended to assist insurers in satisfying the statutory requirements of New York State Insurance Law section 2347(c). Please find enclosed the explanatory memorandum as well as a listing of the percentage change in loss costs for each employment classification.

Very truly yours,

A handwritten signature in blue ink, appearing to read "JA", is written over a faint, larger signature.

Jeremy Attie
President and CEO

NEW YORK WORKERS' COMPENSATION

OCTOBER 1, 2024 LOSS COST REVISION

EXPLANATORY MEMORANDUM

An overall loss cost decrease of 9.0%, which includes a decrease of 9.2% in the average manual loss cost level and no change in the loss cost provision for terrorism, natural disasters and catastrophic industrial accidents, has been approved by the New York State Department of Financial Services to become effective on October 1, 2024.

The following is a description of the various components of the approved change:

Loss Experience – The latest two policy years of experience produced a decrease of 7.2% in the overall loss cost level.

Legislative Changes – This revision includes the estimated cost impacts of both the latest increases in the maximum weekly benefits that were set forth in the 2007 workers' compensation reform legislation, as well as the increases in the minimum weekly benefits that were signed into law on September 6, 2023. This component contributed an increase of 2.3% to the overall change.

Loss Adjustment Expenses – A review of the latest data available resulted in an increase of 1.7% in the Loss Adjustment Expense provision.

Future Trends – The latest analysis of New York claim severity and claim frequency indicates a slight decrease in claim frequency, and mild upward trends in both indemnity and medical claim costs. Combined with a projected wage trend, the final selected net trend factor is -5.9%.

Catastrophe Provision – This revision contains no changes in the loss cost provisions for terrorism and for natural disasters and catastrophic industrial accidents.

Classification Loss Costs – Although the average manual loss cost level is decreasing by 9.2%, individual classification loss cost changes are based on the most recently available loss experience for each classification. Both increases and decreases from the current loss costs have been actuarially calculated for each class. This process ensures that each classification loss cost reflects the appropriate level relative to the experience of the other classifications.
