Re: New York Workers' Compensation
Financial Data Calls - 2019

Dear Sir or Madam:

This bulletin constitutes the official call for the reporting of New York Workers' Compensation financial and related data for 2019.

Please also be advised that the New York Financial Data Reporting Application (FDRA) is now available for the reporting of the 2019 call information. FDRA can be accessed at <https://fdra.nycirb.org>.

Please be advised that the 2019 instructions for the New York Financial Data Calls are now available on the Rating Board's website, www.nycirb.org. It is each carrier's responsibility to access these instructions for information regarding all the 2019 Calls.

When reading the 2019 call instructions, you should especially note the following:

Cessation of Call Expansion (Calls NY 101, NY 125) – As previously announced, instead of expanding the calls by one year, the 2019 Aggregate Financial Data Calls NY 101 and NY 125 shifted the experience years one row. For the 2019 calls, Row A is "Prior to 1988" (formerly "Prior to 1987").

Call Expansion (Call Numbers NY 101D, NY 125D) – Calls NY 101D and NY 125D expanded by one year and will continue to expand until they have the same number of years as NY 101 and NY 125.

Premiums at Designated Statistical Reporting Level (Call Numbers NY 101, NY 101D, NY 125, NY 125D) – With the advent of loss costs in New York as of October 1, 2008, Column (1) of the captioned calls is now referred to as Premium at Designated Statistical Reporting Level, or DSR Level, in lieu of Premium at Rating Board Level. This is the same designation for this data element that is used in other jurisdictions. DSR Level in New York will refer to premium without the effects of carrier rate deviations for policies written prior to October 1, 2008 (the same handling of deviations as in previous calls) and without the effects of carrier loss cost multipliers for those policies effective October 1, 2008 and thereafter. Expense constant premium should be included for policies effective before 10/01/2008 and excluded from policies effective on or after 10/01/2008. Please read carefully the New York Designated Statistical Reporting Level Guide that is included as part of the 2019 call instructions.

Deviation Premium (Call Numbers NY 101 and NY 101D) – With establishment of loss costs in 2008, deviations no longer apply in New York. The Rate Deviation field in the captioned calls for policy years 2009 and subsequent, are grayed out and should be left blank. The Rate Deviation field for policy years 2008 and prior should be reported as in previous calls.

Expense Constant Premium (Call Numbers NY 101, NY 101D, NY 125, NY 125D) – This data element was first requested in 2009 and is only applicable to policy years and calendar-accident years 2008 and subsequent in these calls. Expense constant premium should be reported as a positive number. The reporting of the expense constant premium is mandatory in 2019.

Due Date of March 15, 2019 for the Policy Year Financial Data Calls (Call Numbers NY 101 and NY 101D) – To avoid financial penalties, the policy year calls must be submitted on or before the due date of March 15, 2019.

Advanced Due Date of March 15, 2019 for the Accident Year Financial Data Calls (Call Numbers NY 125 and NY 125D) – Because of the short time frame available for the Rating Board to receive, process, edit and compile Financial Call data prior to the statutory filing date, carriers are requested to submit their Accident Year Calls by March 15, 2019. Please note, however, that financial penalties for the late reporting of these calls will continue to be based on the mandatory due date of April 1, 2019. Nevertheless, all carriers are encouraged to submit their accident year data by the March 15, 2019 date.

Call for New York Direct Written Premium Calendar Year 2018 (Call NY 115) – All member carriers are required to file a statement of the total direct written premium, at full Board rates/loss cost levels, for the Workers' Compensation and Employers Liability Insurance on all risks insured by your company in New York State during calendar year 2018. Each individual member of a group of companies operating under the same management must be separately identified, showing only the written premiums and adjustments on its own business. This statement is necessary to determine the amount of the Rating Board expense chargeable to each member and subscriber for calendar year 2019 and to furnish a basis for the levy of assessment during portions of 2019 and 2020. This data is due to the Rating Board no later than April 1, 2019.

Insurance Expense Exhibit (NY 222, NY 223) – These calls require the submission of data as reported only on Line 16 (Workers' Compensation) in Parts II (net of reinsurance) and III (gross of reinsurance) of the 2018 countrywide Insurance Expense Exhibit. This data is due to the Rating Board no later than April 1, 2019.

Page 14 Exhibit (NY 214) - This call requires the submission of the New York Statutory Page 14 workers' compensation data from the 2018 Annual Statement via FDRA. Enter the New York Statutory Page 14 data directly into the system. This data is due to the Rating Board no later than April 1, 2019.

Special Claim Calls (Call Numbers NY 131, NY 132, NY 141) – The claim numbers shown on these calls must be the same as reported on the respective unit statistical reports. Note that, spaces, hyphens, other symbols and blanks **will not** be removed by FDRA. Please be sure to enter claim numbers exactly how they appeared last year, or they will not match up, potentially generating numerous edits.

Individual Large Loss & Catastrophe Claim Data (Call NY 131) - The reporting of individual large losses and catastrophe claims (Cat Code 48 and Cat Code 87) is required in conjunction with the 2018 New York Financial Data Calls valued as of 12/31/2018. This call, which is similar to the countrywide Call #31 (NCCI), requires carriers to report detailed individual claim information on large New York losses and

catastrophic events in order to develop improved methods and procedures for the handling of these types of losses in aggregate ratemaking. Note, especially, that every claim that has been designated with Catastrophe Number 48 or 87, relating to the terrorist attacks of September 11, 2001, must be reported in this call, irrespective of claim size. The Financial Data Reporting Application, FDRA, contains edits that verify that the number of Catastrophe Code 48 claims and loss amounts balance to those reported in the Appendices of data calls NY 101, NY 101D, NY 125 and NY 125D. This data is due to the Rating Board no later than April 1, 2019.

Section 32 Data (Call NY 132) - In its July 15th, 2004 Opinion & Decision regarding the Rating Board's 2004 rate revision filing, the New York State Insurance Department ordered that the Rating Board conduct a study to quantifying the savings realized from claim settlements made under Section 32 of the Workers' Compensation Law which was amended in 1996 as part of a reform initiative. The results of this study are critical to the continuing ability of the Rating Board to obtain adequate loss costs for its members in the state of New York.

In light of the above, a Special Call was first issued in August 2004, and annually thereafter, which required the submission of individual Section 32 claim information. At this time, the Rating Board is requesting an update to the previously submitted information and is requiring that you submit your individual claim experience for all claims settled under Section 32, with each claim valued as of December 31, 2018. Cumulative loss amounts as of the current valuation date for claims closed as of any prior accounting period must be reported for as many accident years as there are settlements. This data is due to the Rating Board no later than June 1, 2019.

Employers Liability Data (Call NY 141) - A data call for Employers Liability losses was instituted by the Rating Board in 1979. The Rating Board is requiring that you submit individual Employer's Liability claim experience for the latest thirty-two accident years (from 1987 through 2018), all valued as of December 31, 2018. Please note that all claims, including those that have been closed, are required to be reported in this call.

For all claims, the related policy number and policy effective date were added to this call in 2012 and are now mandatory fields. Additionally, the claim numbers must be the same as reported on the respective unit statistical reports. For 2019, both the individual carrier number and the group number are required on the call. The details regarding these new data elements, as well as instructions for the entire NY 141 Call, can be found in the 'Financial Calls' section of the Rating Board's website, www.nycirb.org.

Acknowledgment Form – As a reminder, a combined Acknowledgment and No Experience To Report entry table has been developed for both the Financial Data Calls and the Special Calls, and is contained in FDRA on the Acknowledgment tab. The tab eliminates the need to submit separate acknowledgment forms for every individual call. This will also allow carriers with no experience to report for a specific call(s) to provide that information when submitting the Acknowledgment table. Please note that, in order to have access to the data entry sections in FDRA, it is necessary that you first complete the Acknowledgment table.

Premium Components Reporting Guide – A Premium Components Reporting Guide for use with the New York Financial Data Calls is included for 2019. This guide provides information on where in the

calls various premium components should be reported. Please refer to the guide in the 2019 call instructions.

Templates – Templates in an Excel format are available within FDRA for each of the New York Financial Calls and Special Calls. These will allow for easier download of data from carrier systems into the FDRA.

Enhanced Edits – There are no new edits for the 2019 calls. Details on the edits can be found in the 2019 ‘Edit’ portion of the call instructions.

Frequently Asked Questions (FAQ) – A FAQ section is included in the 2019 call instructions.

Kindly acknowledge immediately your receipt of these calls by checking the appropriate circles on the acknowledgment tab in FDRA. If you have any questions regarding the reporting requirements or FDRA, please do not hesitate to email us at fdra@nycirb.org or contact the NYCIRB Actuarial Department, at (212) 697-3535 ext. 216.

Thank you for your cooperation in fulfilling New York’s data reporting requirements.

Very truly yours,

Ziv Kimmel
