SECTION I — Introduction

Overview

Aggregate financial data is required to be reported annually by each carrier member of the New York Compensation Insurance Rating Board in a prescribed format. Policy year and accident year aggregate statistics are reported in this manner together with Annual Statement information that pertains to workers' compensation. This data forms the basis for the annual loss cost revision.

Unique circumstances may require the Rating Board to request more detailed data than is available from the aggregate financial data calls or from unit statistical reports. When these situations arise, the Rating Board issues a special call to its membership to obtain the needed data. The following are New York Special Calls that have been issued by the Rating Board. Please click on each special call to obtain instructions and report formats.

- [Individual Large Loss and Catastrophe Claims – NY 131](#)
- [Individual Section 32 Claims – NY 132](#)
- [Individual Employers' Liability Claims – NY 141](#)

Financial Data Reporting Application (FDRA)

The Financial Data Reporting Application (FDRA) is an online application for the reporting of all New York Data Calls and is the sole mechanism for the reporting of New York Workers' Compensation aggregate financial data and special call information. The FDRA website is a secure site and a carrier may only access its own data within this system. The previous years' financial call data for your company is available within FDRA. All New York forms can be generated by FDRA and must be submitted to the Rating Board only through FDRA. To access the system, go to fdra.nycirb.org. All instructions and other information regarding the use of the website for reporting New York aggregate financial data and special call data can be found at www.nycirb.org.

If you have any questions about the Data Calls, please contact the Rating Board:

Please note that all data calls are subject to the New York Data Call Incentive Program ([NYDCIP](#)).

SECTION III — General Guidelines

Please read all instructions carefully to ensure the timely and accurate submission of call data, especially noting the following:

1. All carriers must acknowledge which calls they will be submitting by making the appropriate selections in the Acknowledgement tab in FDRA. If there is no data to submit for a specific call, select “No Experience to Report” for that call.
2. Reporting templates for each call are available within FDRA.
3. Designated Statistical Reporting (DSR) Level is continued to be required for the reporting of standard premium beginning with policy year and accident year 2008.
4. Enhanced data quality edits – see [Edits](#).
5. Beginning in 2015, Schedule Rating adjustments should be reflected as part of the following data elements:
 - Net Earned Premium (Column 3 in Calls NY 101, NY 101D, NY 125, and NY 125D)
 - Net Written Premium (Column 24 in Calls NY 101 and NY 101D)
 - Schedule Rating Premium Adjustments (Column 26A in Calls NY 101 and NY 101D)
 - Safety and Specialty Programs Adjustments (Column 26 in Class NY 101 and NY 101D)
 - Premium Adjustments Direct Written Premium for Safety Program Credits & Debits (Column 6 in Call NY 115)
6. Beginning in 2018, premium credits under the Safe Patient Handling Program must be reflected in the reported premium amounts. See individual call instructions and the [Data Dictionary](#) for details.
7. **Extensions of call due dates will not be granted** except under the most extreme circumstances. In these unusual cases, only a formal written request for an extension from the carrier’s data quality officer to the Rating Board’s Chief Actuary will be considered if received prior to a call’s due date.
8. “Current Calendar Year”, as referred to herein, is 2021.

SECTION IV — New York Aggregate Financial Data Calls

A. General Instructions for Calls NY 101, NY 101D, NY 125, NY 125D

1. Prior to running edits and submitting these calls, be sure to answer all the questions listed under the Questions tab in FDRA. The system will not allow submissions of these calls without answering the questions.
2. Premiums and losses are to be reported in whole dollars only.
3. Carriers are required to submit these calls all on the same basis (i.e., group report versus individual company report).
4. The earliest individual policy year/calendar year in these calls is 1991 (Row (B)). The combined experience for all years prior to 1991 is to be shown in Row (A). As previously announced, instead of expanding the calls by one year, the 2021 Aggregate Financial Data Calls shifted the experience years by one row.
5. All data reported on Rows (A) through (UK) are accumulated totals for each of the individual policy/calendar-accident years as of 12/31/2021. All data reported on Row (V) are accumulated totals for all policy/calendar-accident years as of 12/31/2021. All data reported in Row (W) are accumulated totals for all policy/calendar-accident years as of 12/31/2020. These totals (Row (W) of this year's call) correspond to the sum of the policy/calendar-accident years reported on last year's call as displayed in Row (V) of that call. FDRA will automatically utilize the previous years' Row (V) data to populate this row.
6. The New York State Assessment (Code 0932), collected as a separate identifiable policy charge by carriers beginning with policies effective April 1, 1994, must be excluded from all the premiums reported in these calls. To the extent any New York State Assessment amounts are included in your statutory page 14 premium amounts, Assessment amounts must be reported on Line (4) of the Data Reconciliation Page NY 225, but are not to be included on Calls NY 101, NY 101D, NY 125, or NY 125D.
7. Premium amounts from the terrorism policy charge (Code 9740) and the natural disaster and catastrophic industrial accident policy charge (Code 9741) must be excluded from all premium amounts reported in these calls. These amounts must be reported on Lines (7) and (8), respectively, of the Data Reconciliation Page NY 225.
8. Premium amounts from the Workers' Compensation Security Fund surcharge (Code 9749) must be excluded from all premium amounts reported in this call. These surcharge amounts must be reported on Line (5) of the Data Reconciliation Page NY 225.
9. For your convenience, statistical codes are indicated at the end of each premium element in the [premium reference table](#) and in the [Data Dictionary](#), as a guide.
10. All data reported on these calls must include the experience of all claims relating to the terrorist attacks of September 11, 2001 including those that have been designated as Catastrophe Number 48 cases. In addition, aggregate losses and expenses from claims that have been designated as Catastrophe Number 48 cases are to be reported separately on the Appendix Calls (NY 101A, NY 125A, NY 101DA, NY 125DA). These claims must be reported individually on NY 131, Individual Large Claims and Catastrophe Claims.

11. All data reported on these calls must exclude latent disease claims emanating from the rescue, recovery and clean-up at the World Trade Center site and designated as Catastrophe Number 87 cases. These claims must be reported individually on NY 131, Individual Large Claims and Catastrophe Claims.
12. All data reported on these calls must include the experience of all claims relating to the COVID-19 pandemic including those that have been designated as Catastrophe Number 12 cases. In addition, aggregate losses and expenses from claims that have been designated as Catastrophe Number 12 cases are to be reported separately on the Appendix Calls (NY 101A, NY 125A, NY 101DA, NY 125DA). These claims must be reported individually on NY 131, Individual Large Claims and Catastrophe Claims.
13. Experience reported should be direct business only. No deductions shall be made from premiums and losses for, or on account of, reinsurance ceded. Premium and losses arising from reinsurance assumed by the reporting company must also be excluded from the experience.
14. All Federal Classification experience in New York must be included in these calls.
15. Premiums and losses on excess policies must be excluded from these calls.
16. All voluntary reserves and any reserves determined on a statutory formula basis (Schedule P) must be excluded from these calls.
17. Only indemnity claim counts need to be reported. Please exclude medical only claims from the claim counts but include in loss amounts.
18. For employers' liability claims, indemnity losses must include allocated loss adjustment expenses. Please refer to Part IV of the New York Workers' Compensation Statistical Plan for details.

B. NY 101 and Appendix(A): Policy Year, excluding Large Deductible

1. Specific Instructions for Call NY 101

- a. This form requires the reporting of New York Workers' Compensation experience **by policy year**. Calendar year experience for the latest annual period will be derived from the accumulated policy year experience and populated in the data call automatically by FDRA.
- b. Experience from policies with a large deductible must be excluded from this call. A Large Deductible Program is defined as any independently filed deductible program approved by the New York State Department of Financial Services. However, experience from policies with a small deductible under the New York Small Deductible

- Program (as defined in [Rule VIII \(H\) of the New York Workers' Compensation and Employers' Liability Manual](#)) are to be included.
- c. All loss amounts on this call are required to be reported **prior** to the application of any deductible (i.e., on a gross basis).
 - d. The Rate Deviation field in the Policy Year Calls (NY 101 and NY 101D) for policy years 2009 and subsequent should contain zeroes. The Rate Deviation field for policy years 2008 and prior should be reported as in previous calls.
 - e. Standard Written Premium (Column 25 in the Policy Year Calls, NY 101 and NY 101D) is required to be reported at DSR Level, i.e., excluding the application of rate deviations on policies prior to 10/01/08 and excluding loss cost multipliers on policies subsequent to 10/01/08.
 - f. For data as of 12/31/2021, two additional columns are required: Schedule Rating Premium Adjustments (Column 26A); and All Other Safety and Specialty Program Premium Adjustments (Column 26B). For each policy year, the reported values in Columns 26A and 26B will sum to the total for Safety and Specialty Program Adjustments (Column 26).
 - g. The only negative amounts that are acceptable in these calls are those:
 - Derived in Row (X) for Calendar Year Experience
 - Reported in Columns (26A) and (26B) and derived in Column (26), relating to Safety and Specialty Programs
 - Reported in Column (29), Retrospective Rating Adjustments**FDRA will not allow negative amounts in any other rows or columns.**
 - h. NY 101 Appendix (A). Catastrophe Number 48 and Catastrophe Number 12 Cases. All accumulated losses and expenses from claims that have been designated with Catastrophe Numbers 48 or 12, in addition to being included in NY 101, are to be separately reported in NY 101 Appendix as of 12/31/2021. **These amounts cannot be negative.** The loss and expense data elements and their definitions are identical to those specified for Call NY 101. With respect to indemnity claim counts, both open and closed counts for these claims are required. The sum of the total loss amounts and claim counts reported in the Appendix for NY 101 plus NY 101D must be equal to the amounts reported in the appendices for NY 125 plus NY 125D, and equal to the sum of the individually reported Catastrophe Numbers 48 and 12 claims reported in NY 131, Individual Large Claims and Catastrophe Claims. These entries must also reconcile with total amounts reported in unit statistical reports for Catastrophe Numbers 48 and 12 cases.

C. NY 125 and Appendix (A): Calendar-Accident Year, excluding Large Deductible

1. Specific Instructions for Call NY 125

- a. This call requires the reporting of New York Workers' Compensation premium data by calendar year and accumulated loss data by accident year evaluated as of 12/31/2021. Calendar year loss data for the latest annual period will be derived from the accumulated accident year loss data.
- b. The 2021 calendar year premium in Row (UK) of this call must be the same as the calendar year premium reported on the Policy Year call (Call NY 101) in Row (X).
- c. Experience from policies with a large deductible must be excluded in this call. A Large Deductible Program is defined as any independently filed deductible program approved by the New York State Department of Financial Services. However,

experience from policies with small deductibles under the New York Small Deductible Program (as defined in [Rule VIII \(H\) of the New York Workers’ Compensation and Employers’ Liability Manual](#)) is to be included.

- d. All loss amounts on this call must be reported **prior** to the application of any deductible (i.e., on a gross basis).

D. NY 101D and Appendix (A): Policy Year Large Deductible

1. Specific Instructions for Call NY 101D

- a. This form requires the reporting of New York Workers' Compensation experience **by policy year** for only those policies written under the terms of a Large Deductible Program. A Large Deductible Program is defined as any independently filed deductible program approved by the New York State Department of Financial Services. Experience from policies written under the terms of the Rating Board's Small Deductible Program should be included on the standard Policy Year Call NY 101.
- b. All the data required in this call other than net premium and IBNR, must be submitted on a gross (prior to deductible) basis. Gross reporting refers to standard premium prior to the application of deductible credits. Paid loss and case reserves are to be reported on a first dollar basis, i.e., as if no deductible applied. **However, IBNR can be reported on a net basis in this call.** Failure to provide data on a gross basis, other than IBNR, will constitute an incomplete call and will result in fines under the Rating Board's Financial Data Call Incentive Program. In addition, carriers that submit unacceptable data in terms of gross reporting will be excluded from the ratemaking database and will subsequently be reported to the New York State Department of Financial Services when the loss cost filing documents are prepared.
- c. The Rate Deviation field in the Policy Year Calls (NY 101 and NY 101D) for policy years 2009 and subsequent should contain zeroes. The Rate Deviation field for policy years 2008 and prior should be reported as in previous calls.
- d. Standard Written Premium (Column 25 in the Policy Year Calls, NY 101 and NY 101D) is required to be reported at DSR Level, i.e., excluding the application of rate deviations on policies prior to 10/01/08 and excluding loss cost multipliers on policies subsequent to 10/01/08.
- e. For data as of 12/31/2021, two additional columns are required: Schedule Rating Premium Adjustments (Column 26A); and All Other Safety and Specialty Program Premium Adjustments (Column 26B). For each policy year, the reported values in Columns 26A and 26B will sum to the total for Safety and Specialty Program Adjustments (Column 26).
- f. The only negative amounts that are acceptable in these calls are those:
 - Derived in Row (X) for Calendar Year Experience
 - Reported in Columns (26A) and (26B) and derived in Column (26), relating to Safety and Specialty Programs
 - Reported in Column (29), Retrospective Rating Adjustments**FDRA will not allow negative amounts in any other rows or columns.**
- g. NY 101D Appendix (A). [Catastrophe Number 48 and Catastrophe Number 12 Cases.](#) All accumulated losses and expenses from claims that have been designated with Catastrophe Numbers 48 or 12, in addition to being included in NY 101D, are to be separately reported in NY 101D Appendix as of 12/31/2021. **These amounts cannot be negative.** The loss and expense data elements and their definitions are identical to those specified for NY 101D. With respect to indemnity claim counts, both open

and closed counts for these claims are required. The sum of the total loss amounts and claim counts reported in the Appendix for NY 101 plus NY 101D must be equal to the amounts reported in the appendices for NY 125 plus NY 125D, and equal to the sum of the individually reported Catastrophe Numbers 48 and 12 claims reported in NY 131, Individual Large Loss and Catastrophe Claims. These entries must also reconcile with total amounts reported on unit statistical reports for Catastrophe Numbers 48 and 12 cases.

2. Please refer to the [NY 101 Record Layout](#) for the layout of the NY 101D Call.

E. NY 125D and Appendix (A): Calendar – Accident Year Large Deductible

1. Specific Instructions for Call NY 125D

- a. This call requires the reporting of New York Workers' Compensation premium data by calendar year and accumulated loss data by accident year evaluated as of 12/31/2021 for only those policies written under the terms of a Large Deductible Program.
- b. All the data required in this call, other than net premiums and IBNR, must be submitted on a gross (prior to deductible) basis. Gross reporting refers to standard premium prior to deductible credits. Paid loss and case reserves are to be reported on a first dollar basis, i.e., as if no deductible applied. **However, IBNR can be reported on a net basis in this call.** Failure to provide data on a gross basis, other than IBNR, will constitute an incomplete call and will result in fines under the Rating Board's Financial Data Call Incentive Program. In addition, carriers that submit unacceptable data in terms of gross reporting will be excluded from the ratemaking database and will subsequently be reported to the New York State Department of Financial Services when the rate filing documents are prepared.
- c. Carriers are required to submit this call on the same basis (i.e., group report versus individual company report) as the call for Large Deductible Policy Year Data (NY 101D).
- d. [NY 125D Appendix \(A\). Catastrophe Number 48 and Catastrophe Number 12 Cases.](#) All accumulated losses and expenses from claims that have been designated with Catastrophe Numbers 48 or 12, in addition to being included in NY 125D, are to be separately reported in NY 125D Appendix as of 12/31/2021. These amounts cannot be negative. The loss and expense data elements and their definitions are identical to those specified for NY 125D. With respect to indemnity claim counts, both open and closed counts for these claims are required. The sum of the total loss amounts and claim counts reported in the Appendix for NY 101 plus NY 101D must be equal to the amounts reported in the appendices for NY 125 plus NY 125D, and equal to the sum of the individually reported Catastrophe Numbers 48 and 12 claims reported in NY 131, Individual Large Loss and Catastrophe Claims. These entries must also

reconcile with total amounts reported on unit statistical reports for Catastrophe Numbers 48 and 12 cases.

2. Please refer to the [NY 125 Record Layout](#) for the layout of the NY 125D Call.

SECTION V — Annual Statement Calls

A. NY 214: Annual Statement Statutory Page 14

1. Specific Instructions for Call NY 214

- a. The call requires the submission of the New York Statutory Page 14 workers’ compensation data (Line 16) from the 2021 Annual Statement via FDRA. Enter the New York Statutory Page 14 data directly into the system.
- b. Page 14 data must be submitted through FDRA. Do not submit the Annual Statement to the Rating Board for purposes of this reporting requirement.
- c. For carriers with no data, please submit all zeros.

SECTION VI — Other New York Financial Calls

A. NY 225: New York Data Reconciliation

1. Specific Instructions for Call NY 225

- a. This call is required from all carriers to enable the Rating Board to reconcile data reported on its calls to the carrier’s financial records. NY 225 is mandatory and is included in FDRA. Failure to submit NY 225 in a timely manner will result in penalties under the New York Data Call Incentive Program.
- b. An explanation is required if any amount on Line (13) is other than 0. FDRA will not allow the submission of NY 225 without an appropriate explanation.
- c. Calls NY 101 and NY 214 must be submitted to the Rating Board through FDRA prior to the submission of NY 225 as these calls automatically populate Row 1 and Row 2 of Call NY 225.

B. NY 115: Individual Carrier New York Direct Written Premium

1. Specific Instructions for Call NY 115

- a. Each carrier member is required to file a statement of the total direct written premium for the workers’ compensation/employers’ liability insurance written on risks insured by the company in New York during calendar year 2021.
- b. Each individual carrier member of a group of companies operating under the same management must be identified separately, showing only the written premiums and adjustments on its own business.
- c. This statement of direct written premium is necessary for the following purposes:
 - i. To determine the amount of the Rating Board expense chargeable to each member and subscriber for calendar year 2022; and
 - ii. To furnish a basis for the levy of assessments during portions of 2022 and 2023.

SECTION VII — Special Data Calls

A. General Instructions for Calls NY 131, NY 132, NY 141

1. Both claim number and policy number are required to be reported for each claim. The information must match to the claim on the unit statistical report. Please refer to New York Workers' Compensation Statistical Plan for details.
2. Claims from the same incident and claimant should be reported as a single claim with a single claim number (which should match the claim number reported on the unit statistical report). This rule applies even if the carrier claim system has the single claim recorded as multiple claims, which may be the case in the following circumstances:
 - a. Multiple claim numbers assigned to the same incident due to system constraints on the value of the medical or indemnity portion
 - b. Separate claim number established for the employers' liability portion of the claim in addition to the original workers' compensation claim
 - c. Separate claim number designated to death claims when death occurred on a date later than the original accident date, as required by the Workers' Compensation Board.
3. In cases involving subrogation, the paid loss amounts are the net paid loss (gross indemnity paid loss minus the amount recovered less recovery expenses) and the incurred loss amounts are the net incurred loss amounts (gross incurred loss minus the amount recovered less recovery expenses). Refer to Part IV (9) of the New York Workers' Compensation Statistical Plan for instructions on reporting claims involving subrogation and recoveries.

B. NY 131: Individual Large Loss and Catastrophe Claims

1. Specific Instructions for Call NY 131

- a. Call NY 131 requires the reporting of individual large losses and claims associated with extraordinary loss events (currently only Catastrophe Number 48, Catastrophe Number 87, and Catastrophe Number 12). These claims must be valued as of 12/31/2021. Large losses are defined as claims with incurred values of \$500,000 and greater. All claims for accident years 1984 and later for which total case incurred losses (indemnity plus medical) are greater than or equal to \$500,000 as of 12/31/2021 should be reported on this call.
- b. Do not report a claim if the total case incurred loss is less than \$500,000 even if the claim had been reported in a prior year's call.
- c. Report all claims with catastrophe codes 48, 87, or 12, regardless of size. The sum of the Cat 48 and Cat 12 claims and dollar amounts reported in this call must be equal to the amounts reported in the corresponding NY 101, NY 101D, NY 125 and NY 125D Appendices.

- d. Claims cannot be grouped.
- e. Closed, as well as open and reopened, claims must be included.
- f. Medical-only and expense-only claims are included.
- g. Loss amounts should be reported net of second injury fund and other recoveries such as subrogation, but **gross of deductible reimbursements**, consistent with the New York Policy Year and Calendar-Accident Year Calls.
- h. Case outstanding may include or exclude statutorily allowable discounting, as long as the approach is consistent with the Policy Year and Calendar-Accident Year Calls.
- i. Reported losses shall include indemnity amounts paid into the Vocational Rehabilitation Fund.
- j. Amounts charged to carriers and paid as assessments for the Special Disability Fund, Reopened Case Fund, Workers' Compensation Security Fund, Workers' Compensation Board expenses, the operating expenses of the Special Funds Conservation Committee, or safety training and accident prevention under OSHA programs must be excluded from the reported losses for all years.
- k. Experience reported should be for **direct business only**. No deductions shall be made from losses for, or due to, reinsurance ceded. Losses arising from reinsurance assumed by the reporting company shall be excluded from the experience.
- l. All Federal Classification experience in New York must be included in this call.
- m. Losses on excess policies must be excluded from this call.
- n. Carrier Name – The carrier(s) name should be reported consistent with the Policy Year and Calendar – Accident Year Calls (i.e., group report or individual company report). This facilitates reconciliation of carrier data. Carriers that have merged companies should report consistently with their historical financial call reporting.
Example: If a merger took place in 2017 between Carriers A and B with A being the reporting carrier, then NY 131 data valued as of 2016 should be reported under Carrier A.

C. NY 132: Individual Section 32 Claims

1. Specific Instructions for Call NY 132

- a. All individual incurred claims that have been settled under Section 32 of the New York Workers' Compensation Law are to be reported as of 12/31/2021, including all claims closed, as well as any claims in which only a portion of the claim was settled under Section 32 and the claim remains open. **Cumulative loss amounts as of 12/31/2021 for all claims closed as of any prior accounting date must be reported for as many accident years as there are settlements.**
- b. If a claim is subject to a deductible, all data to be reported must be on a gross of deductible basis, i.e., as if no deductible applies.
- c. IBNR is not to be included in any claim amount.
- d. Enter, by claim number, all New York claims that were settled under Section 32, identified by accident year, valued as of 12/31/2021. For each claim, show both the incurred indemnity and incurred medical amounts as of 12/31/2021. Claims closed under Section 32 and reported in previous submissions must continue to be reported in this call.
- e. If only a portion of a claim is subject to Section 32, the entire claim must be reported.
- f. The New York State Department of Financial Services has requested that the Rating

Board report all carriers that fail to respond to this call in a complete and timely manner.

C. NY 141: Individual Employers' Liability Claims

1. Specific Instructions for Call NY 141

- a. This call requires the reporting of New York Employers' Liability individual claim experience by accident year valued as of 12/31/2021.
- b. Individual Employers' Liability claim experience for accident years 1985 through 2021, all valued as of 12/31/2021 must be reported on this call.
- c. All Employers' Liability incurred claims are to be reported, including all open claims and all closed claims for each accident year as of 12/31/2021. **Note: Claims closed and reported in previous submissions must continue to be reported in this call.**
- d. When claims contain both Employers' Liability and Workers' Compensation losses, report only the amount of Employers' Liability losses. (Note: Maintain the claim number associated with the workers' compensation claim consistent with the claim number used in the unit statistical report.)
- e. Enter each New York employers' liability claim that was incurred in each of the Accident Years 1985 through 2021 valued as of 12/31/2021. For any claim containing both workers' compensation and employers' liability, report only the employers' liability portion. In cases where the experience incurred on these coverages cannot be separated out, indicate this condition by placing an "N" in Column (6). Similarly, a "Y" in Column (6) should indicate that the losses shown are incurred exclusively under the Employers' Liability section of the policy. Nevertheless, carriers are encouraged to separately identify just the employers' liability portion of these claims.
- f. For claims valued prior to January 1, 1997, Employers' Liability losses and allocated loss adjustment expenses are to be reported for those claims reported as Employers'

Liability (Coverage Codes 31, 34, 37), Including Employers’ Liability (Coverage Codes 41, 44, 47) and Third - Party Over (previously Coverage Codes 13, 16, 19, 23, 26, 29 which were applicable on these claims valued prior to January 1, 1991), as set forth in the New York Workers’ Compensation Statistical Plan.

SECTION IX — NY Designated Statistical Premium Reporting Level Guide

The Designated Statistical Reporting (DSR) Level premium is the standard earned premium that would result if business were written at Rating Board approved loss costs or rates instead of at the company rates. It is the common benchmark level at which carriers report premium on the Financial Calls in all states.

In New York, the DSR premium is that required to be reported in [Column \(1\)](#) of the following calls: NY 101, NY 101D, NY 125 and NY 125D. DSR premium is also required to be reported in [Column \(25\)](#) of the following calls: NY 101 and NY 101D. Please see the [Data Dictionary](#) for additional information on these requirements (links above).

Up until October 1, 2008, DSR level in New York represented carrier premiums reported at Rating Board rate level, i.e., excluding the application of carrier rate deviations. With the advent of loss costs as of October 1, 2008, the DSR level represents carrier premiums reported at Rating Board loss cost level, i.e., excluding the application of carrier loss cost multipliers.

A. Calculating Designated Statistical Reporting Level Premium

To calculate DSR Level premium, a carrier can take one of two general approaches:

- Calculate DSR Level premium directly by extending exposures. This approach is useful if the company has data available in detail for class codes and applicable premium adjustments.
- Derive DSR Level premium from Company Standard premium. This approach is useful when the company adopts the most recent Rating Board loss costs or rates and uses a consistent loss cost multiplier or rate deviation.

1. Calculating DSR Level Premium Directly by Extending Exposures

This method entails re-rating policies using the Rating Board approved loss costs or rates instead of company rates for individual class codes.

The first step is to determine the Rating Board approved loss cost or rate in effect for each class code. The appropriate rates and loss costs by class and effective date can be found in the Loss Cost Section of our website, www.nycirb.org.

Once the loss cost or rate is determined, the manual premium for each class code should be calculated as follows: Manual Premium = (Payroll/100) x Rating Board Approved Loss Cost or Rate.

Next, apply premium adjustments in the correct order using the premium algorithm located in the Workers' Compensation and Employers' Liability Manual. Note that only those adjustments that are components of DSR Level premium should be included in this step. Refer to the Premium at DSR Level definition in Section VIII – Data Dictionary for these [premium components](#).

Finally, aggregate the data for each policy according to the policy effective date.

a. Extending Exposures-Sample Calculations

The following example illustrates the calculation of DSR Level premium by extending exposures. Since 2008 premiums are based on Rating Board rates prior to 10/1/08 and loss costs beginning 10/1/08, the example is for policy year 2008.

Assume for Policy Year 2008 there are only two policies written, and the premium at this point has been fully earned. Calculate the DSR Level premium given the following data:

Policy #WC12ABC

Policy Effective Date:	1/1/2008
Experience Modification Factor:	1.15
Payroll for Class Code 8810:	2,500,000
Payroll for Class Code 7421:	525,000
Payroll for Class Code 7380:	100,000
Increased Limits Premium for Employers' Liability (on a rate base):	1,775
Aircraft Seat Surcharge (on a rate base):	400
Expense Constant:	200

Policy #WC789YZ

Policy Effective Date:	10/1/2008
Experience Modification Factor:	0.95
Payroll for Class Code 8810:	1,045,000
Payroll for Class Code 4431:	725,500
Expense Constant:	250

Begin by determining the manual premium for the class codes using the Rating Board rates and loss costs:

(1)	(2)	(3)	(4)	(5)
Policy #	Class Code	Payroll	Rate or Loss Cost	Manual Premium [(3) / 100] x (4)
WC12ABC	8810	2,500,000	0.28 (rate)	7,000
WC12ABC	7421	525,000	2.75 (rate)	14,438
WC12ABC	7380	100,000	7.67 (rate)	7,670
WC789yz	8810	1,045,000	0.20 (loss cost)	2,090
WC789yz	4431	725,500	4.59 (loss cost)	33,300

Then, using the premium algorithm in the Workers' Compensation and Employers' Liability Manual and the [premium definition](#) in the call reporting instructions, include the appropriate premium adjustments.

Policy #WC12ABC

Manual Premium for Policy	7,000 + 14,438 + 7,670 =	29,108
Increased Limits premium		+ 1,775
Premium prior to the application of the experience mod		30,883
Application of the experience mod		x 1.15
Premium after the application of the mod		35,515
Aircraft Seat Surcharge		+ 400
Expense Constant		+ 200
DSR Level premium		36,115

Policy #WC789YZ

Manual Premium for Policy	2,090 + 33,300 =	35,390
Premium prior to the application of the experience mod		35,390
Application of the experience mod		x 0.95
DSR Level premium		33,621

The total DSR Level premium (Column (1)) for Policy Year 2008 based on these two policies is $36,115 + 33,621 = 69,736$.

Note that the calculations for the policies above include the expense constant for the 1/1/08 policy since the DSR Level is rates and exclude the expense constant for the 10/1/08 policy because the DSR Level is loss costs. If the DSR Level were loss costs for both policies, both calculations would have excluded the expense constant.

b. Variations

The way in which this method is implemented may depend on the form in which the data is available. The example provided in Section a. above used data grouped by policy and class code. Extending exposures can also be applied to data grouped by class code and applicable premium adjustments. The data for each class code would include premium across multiple policies and effective dates. When applying the method this way, there are some additional considerations:

- If the approved loss costs or rates changed in the middle of the policy year, it would be necessary to separate the data so that the different approved loss costs or rates could accurately be reflected
- It is necessary to ensure that individual policy experience modification factors and other premium adjustments are reflected appropriately

2. Deriving DSR Level Premium from Company Standard Premium

This approach entails adjusting Company Standard premium to DSR Level premium for every time period where there is a deviation and/or loss cost multiplier (LCM) in effect. There are two basic steps in this method:

- Determine the deviations and/or LCMs in effect for a given policy year
- Use the deviations and/or LCMs to derive DSR Level premium from Company Standard premium

a. Determining the Deviations and/or LCMs in Effect for a Given Policy Year

The first step in this method is to determine the deviations and/or LCMs in effect for a given policy year. These depend on the following items:

- Company loss cost multipliers or rate deviations in effect during the year
- Which Rating Board loss costs or rates were used by the carrier throughout the year
- DSR Levels in effect throughout the year

If the company adopts the latest approved loss costs or rates on the day they become effective, the deviations and/or LCMs in effect are simply the company rate deviations or loss cost multipliers. See Example 1 below.

Example 1

Assume that Rating Board rates and then loss costs became effective on 10/1/07 and 10/1/08, respectively.

The carrier adopted the 10/1/07 rates on the day they became effective, with a deviation of .90. The carrier then adopted the 10/1/08 approved loss costs on the day they became effective, with a loss cost multiplier of 1.30.

So, for Policy Year 2008 DSR Level premium, the following factors would need to be used to adjust (remove effect of the deviations and LCMs) Company Level premium to DSR Level premium:

- 1/1/2008 through 9/30/2008: .90
- 10/1/2008 through 12/31/2008: 1.30

b. Using Deviations or LCMs to Derive DSR Level Premium from Company Standard Premium

The deviation or LCM for a given time period in the policy year is removed from Company Standard premium to determine the correct DSR Level premium. Then the premium for each time period is added together to create the final policy year DSR Level premium. Note that the application of this method is slightly different, depending on whether the DSR Level is loss costs or rates.

When the DSR Level is loss costs (10/1/08 and thereafter), Company Expense Constants and Balance to Minimum Premium adjustments must be removed from Company Standard premium prior to dividing by the LCM. See Example 2 below.

Example 2

For Policy Year 2008, assume we have the following data:

Time Period	Company Standard Premium*	Company Expense Constant	Balance to Minimum Premium Adj.	Deviation/LCM
1/1/2008-9/30/2008	3,500,000	400,000	175,000	.90
10/1/2008-12/31/2008	750,000	68,000	35,000	1.30
* includes expense constant and balance to minimum premiums				

The DSR Level premium for January through September is:

$$= [(3,500,000 - 400,000 - 175,000) / .90] + 400,000 + 175,000 = 3,825,000$$

The DSR Level premium for October through December is:

$$= (750,000 - 68,000 - 35,000) / 1.30 = 497,692$$

So, the DSR Level Premium for Policy Year 2008 is:

$$= 3,825,000 + 497,692 = 4,322,692$$

Note: When the DSR Level is rates (prior to 10/1/08), Company Expense Constants and Balance to Minimum Premium adjustments should be removed from Company Standard premium before applying the deviation. However, the Expense Constants and Balance to Minimum Premium adjustments MUST then be added back in to DSR Level premium.

3. Calculating DSR Level Premium - Other Considerations

Ensure that the data used in all calculations is consistent with the reporting requirements. For example, the data should reflect earned premium as of the appropriate valuation date with all proper exclusions.

Ensure that premium charges and/or credits are properly reflected based on their respective statistical code. Some statistical code premium amounts may need to be adjusted so that they only reflect amounts associated with the included experience.

The calculations shown in this GUIDE assume that the anniversary rating date (rate effective date) is the same as the policy effective date. If the two are different, and the anniversary rating date rule applies (for more details, see the Workers' Compensation and Employers' Liability Manual), the calculations should consider both the policy effective date and the anniversary rating date. The anniversary rating date may result in a different DSR Level for a portion of the policy. The policy effective date determines which policy year the experience is reported under. See Example 3 below.

Example 3

For Policy Year 2008, suppose we have the following data:

DSR Level for Policy Year 2008 (prior to 10/1/08):	10/1/2007	rates
DSR Level for Policy Year 2008 (10/1/08 & after):	10/1/2008	loss costs
Policy Period:	2/1/2008-2/1/2009	
Anniversary rating date:	12/1/2008	
The DSR Level for the policy:		
2/1/2008 through 11/30/2008:	10/1/2007	rates
12/1/2008 through 1/31/2009:	10/1/2008	loss costs
Policy year experience is reported under:	2008	

Note that, in the future, calculations may also need to be adjusted if:

- Rating Board loss cost changes apply to all outstanding policies (i.e., DSR Level premium includes the impact of all outstanding changes)

- There are different rating options used for certain policies (e.g., consent to rate)

Regardless of the method utilized, all three premium columns in the Financial Data Calls should be on a consistent basis so that they reflect the same underlying experience.

B. Loss Costs in New York

Unless otherwise noted, an approved set of Rating Board loss costs becomes the DSR reporting level on the loss cost approval date and remains the DSR reporting level until superseded by a subsequent set of approved loss costs.

SECTION XI — New York Data Call Incentive Program (“NYDCIP”)

A. General

The timely and accurate submission of carrier data enables the Rating Board to effectively fulfill its mission as the designated data collection organization for Workers’ Compensation in New York. To encourage carrier members to satisfy their obligations to report the requested call information in a timely and accurate manner, the New York Data Call Incentive Program (NYDCIP) applies as set forth below. NYDCIP shall apply separately to each of the following annual Financial Calls for data:

- Policy Year, excluding Large Deductible (NY 101)
- Policy Year Large Deductible (NY 101D)
- Accident Year, excluding Large Deductible (NY 125)
- Accident Year Large Deductible (NY 125D)
- Appendices to each of the aforementioned calls (NY 101A, NY 101DA, NY 125A and NY 125DA).
- Statutory Page 14 (NY 214)
- Insurance Expense Exhibit – Net and Direct (NY 222 and NY 223)
- New York Data Reconciliation (Page NY 225)
- New York Direct Written Premium (NY 115)
- Individual Large Loss and Catastrophe Claims (NY 131)
- Individual Section 32 Claims (NY 132)
- Individual Employers’ Liability Claims (NY 141)

For the purpose of this program, any call that is submitted later than the call due date will be considered a late submission. A submission will be considered late and charges will accrue for each call until the call is received.

Resubmissions of a previously submitted call, whether voluntary by the carrier or required by the Rating Board as a result of its review of the submission, are subject to the provisions of the NYDCIP.

The financial penalties imposed by the NYDCIP consist of four parts – a charge for late submissions based on the number of days late and a carrier’s market share; a charge for errors made by the carrier on the experience submitted; a charge for failure of a carrier to respond to Rating Board inquiries; and a resubmission charge.

B. Penalty Formula

The total charge for overdue and incorrect reporting of financial data will be calculated as follows:

$$A = (N \times \$200) + [(S \times B \times 100) \times \$500] + [(S \times C \times 100) \times \$1000] + E + P + L$$

Where, A = Total Penalty Charge

B = 1 to 10 business days late

C = 11 + business days late

N = Total number of business days late

S = Market share equal to the proportion of the carrier's standard written premium to the total New York Workers' Compensation standard written premium for the current calendar year. Source data is NY 115 – Individual Carrier Call for Direct Written Premium.

E = \$1000 flat charge that results from the carrier's data being excluded from the annual loss cost filing due to either a failure to report a call or significant errors in the submitted data. Erroneous submissions are also subject to the basic daily charges until corrected.

P = \$300 per day flat charge for each day after 5 business days that a carrier fails to respond to a Rating Board data inquiry (phone call, email, letter), whether or not a correction is required.

L = \$300 per call Resubmission Charge for each resubmission submitted after the call due date.

The maximum penalty for each call under this program will be the greater of \$5,000 or 0.1% of the carrier's calendar year written premium, subject to a maximum of \$50,000 per call.

C. Non-Payment of Penalties

If penalties associated with NYDCIP remain unpaid after 90 days, interest in the amount of 1.33% per month (16% per year) will be charged on the unpaid balance. Interest will continue to be assessed for each 30-day period that a carrier remains delinquent on the total balance due to date.

In addition, the Rating Board's Constitution establishes a mechanism for the Rating Board's Board of Governors to address a member's unpaid fines. As provided by this mechanism, a member's failure to satisfy their obligations may result in termination of membership, additional fines, interest at the maximum rate permitted by law, or other remedial or corrective action, including reimbursement of attorneys' fees and costs incurred by the Rating Board to bring members into compliance with their obligations.

D. Appeal Process

If a carrier objects to a fine amount that has been imposed, it can appeal the application of the NYDCIP. To be considered for review, a written request explaining the reason(s) for the appeal must be submitted to the Actuarial Department of the Rating Board within 30 days of the date on the invoice that was sent by the Rating Board to the carrier.

Once the written appeal is received, the following action will be taken:

- A staff member will acknowledge receipt of the appeal and inform the carrier that its appeal will be reviewed.
- The Rating Board will review the appeal of the carrier and, within 30 days, grant the carrier's request or sustain the original fine(s).
- The carrier, if not satisfied with the staff decision, may then request, in writing, a reconsideration of the decision, or a conference with the Rating Board staff to resolve any differences. This request should contain supporting documentation and be addressed directly to the Rating Board's Senior Vice-President & Chief Actuary for resolution.
- If all the above fails to resolve the issue(s), then an appeal directly to the President of the Rating Board may be made.

E. Data Quality Standards

To help ensure data quality, FDRA automatically performs arithmetic functions and populates certain data cells with data entered in other cells that have the same definition and valuation. This process ensures that the submitted data is consistent within and between the various call forms.

Relational edits that are currently performed by the Rating Board staff will be incorporated into FDRA on an ongoing basis.

As part of its monitoring efforts, and to provide the carriers with information regarding the quality of the reported financial data, Score Card Reports for each carrier will be made available within FDRA several months after each year's call process has concluded. The information from the Score Card Report will be reflected in the Carrier Performance Reports issued by the Rating Board.

The Score Card Report provides grades for each of the annual Financial Data Calls and are comprised of two grades, one for timeliness and one for data quality. Grades are assigned for timeliness based on when each call is received relative to its respective due date. Data quality grades are reflective of any errors in the data or resubmissions of previously reported call data.

A sample Score Card Report is shown below along with the breakdown of both scores.
